## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement filed 28 Nov 2006 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites a plethora of items in the preamble yet fails to positively link these items to structure recited in the body of the claim. Additionally, applicant refers to "inlets (2)" in line 3 and an "outlet pipe (2)" in line 18. These two structures are the same and applicant should identify them as such with consistent terminology. Claim 1 recites, line 4, "outlet pipe (34)" and line 24 "outlet

(24)” These should be consistently recited either with –pipe—or without -- pipe--. Claim 3, the words appear awkwardly worded. Claim 4, “a swirl chamber” should be “the swirl chamber” or “said swirl chamber”. Claim 6, “a movable barrier” should be “the movable barrier”. Several phrases lack antecedent basis as recited and many phrases are functional in nature while failing to recites the necessary structure to achieve the recited function.
